A First: A Solar Pool Cleaner

Solar-Breeze is the world's first and only solar-powered robotic swimming pool cleaner that uses sunlight instead of electricity to remove dirt, debris, pollens and even suntan oils by skimming the pool's surface. During the day, Solar-Breeze uses the sun's power to run the motors that drive it across the water while surplus power is used to charge its batteries, enabling it to continue operating long after the sun sets.

Advanced PC software controls Solar-Breeze's overall functions by directing it to areas with the most sunlight. Solar-Breeze 2.0 is being produced at a plant in Boca Raton and is available online at www.solar-breeze.com for \$499.

Cord Free Roman Shades

The Kenney Collection has no cords—great if you have children in the home. The Roman Shades offer light filtering, insulation and thermal blackout features. Their products that are easy to install (no tools required spring tension shades), products that are energy efficient (insulated Roman shades), and products that add an affordable fashion element to your windows (match stick bamboo rollups). The new Kenney CordFree Roman Shade is available at Walmart.

New Solution for Vits for Busy Brains

For anyone who knows the racing, "misfiring" brain associated with our multitasking lifestyles, Rainbow Light Nutritional Systems has developed a natural remedy to calm the "busy brain" that can impair mental clarity and cause restless sleep.

Busy Brain Release is the first product to deliver therapeutic levels of GABA and L-theanine (both blunt cortisol, a hormone released in response to stress), combined with fast-acting co-enzymated B vitamins and calming herbs such as skullcap and lavender for comprehensive nervous system support. Studies suggest these ingredients support a state of calm, better sleep, mental clarity and focus, and help the body adapt to stress. Busy Brain Release is a great choice for anyone who prefers a natural approach to stress, versus prescription or over-the-counter drugs.

RAINBOW LIGHT®

Busy-Brain Release Coenzymate B Mini-Tab

Bio-Balanced Systems

Fast-Acting for Calm & Clarity
GABA, L-Theanine & Calming Botanicals
Nervous System Support

ALLERGEN Vegan Guard®
Mini-Tabs Dietary Supplement

Busy Brain Release comes in BPA-free, 100 percent recycled plastic, sustainable EcoGuard bottles. Rainbow Light's EcoGuard bottles will keep more than 6 million plastic bottles from ending up in oceans, natural habitats and landfills each year. Busy Brain Release costs \$23.99 for 60 mini tabs. It's available locally at Richard's Whole Foods on Ringling Blvd., Sarasota, Super Value, 8321 Lockwood Ridge Rd., and Super Value Nutrition, 1461 Main St., Sarasota or at www.rainbowlight.com.

Probiotics for Your Teeth

Florida-based Oragenics, Inc. has launched Evora-Plus, an all-natural probiotic teeth whitening mint. EvoraPlus represents the first time probiotics, which have traditionally been used to support digestive and immune health, have been applied for whitening teeth and eliminating bad breath while promoting gum and tooth health.

EvoraPlus whitens teeth (up to three to four shades within the first month). At the same time, as a result of its proprietary harmful bacteria-fighting science, it supports optimal gum and tooth health while freshening breath and whitening teeth.

Periodontal disease and poor oral health are linked to heart disease, diabetes, osteoporosis, and other illnesses. American Dental Association studies show that three out of four of Americans are affected by periodontal disease at some point in their lives.

The ProBiora3 blend of beneficial bacteria used in EvoraPlus helps to maintain the oral flora in a healthy balance using a simple, non-invasive daily routine. When the EvoraPlus mint melts on the tongue, the freeze-dried probiotics activate and attach themselves to the teeth and gum tissue, establishing colonies of active bacteria both on the surface of the teeth and deep beneath the gum line. These colonies compete for nutrients and interfere with the harmful oral bacteria that disrupt gum and tooth health, and also cause bad breath.

EvoraPlus can work with people who wear braces, dentures, caps or veneers. EvoraPlus is available through EvoraPlus.com as Drugstore.com, Walgreens.com, Target. com and CVS.com.
